

THREE WORD THURSDAYS!

Every Thursday throughout the semester you will be responsible for creating a picture or video clip based on "three words". These words can be about any topic of your choosing: How you feel, an activity, person/people, an event, etc. - as long as it's G-rated, of course! 😊 At the end of the semester, you will combine these original creations to develop a Three Word "mash-up" utilizing a digital storytelling tool (i.e. Movie Maker).

THIS PROJECT ROCKS!

See the Multimedia wiki for examples of a Three Word video. 😊

HOW THIS WORKS...

» Each Thursday (12 of them 😊) you will be required to take a photo or shoot a video clip for your "Three Word" Project. Once the file is complete, save it to your Multimedia folder on the server. Label it with the date the activity was completed (i.e. 8-30-12).

» This activity will be worth ten points/week - for a total of 120 points. The culminating project - a "mash-up" containing all of your

weekly files - will be scored separately.

ADDITIONAL PHOTO & VIDEO DETAILS...

» Your "three words" file should consist of a total of five images and seven video clips.

» Words for your images can be included in the original photo or you can add your words after the fact with photo imaging software and/or Web 2.0 tools.

» Words for your video clips should be incorporated into the original video.

HAVE FUN! BE CREATIVE!
